Professional Summary

B.Tech CSE graduate (2021–2025) with hands-on experience in Java, Spring Boot, JSP/Servlets, MySQL, REST APIs, and frontend technologies like HTML, CSS, Bootstrap, and JavaScript. Built multiple full-stack applications and completed internship involving end-to-end web development. Skilled in debugging, problem-solving, and creating scalable, user-focused applications. Seeking a role as a Java Full Stack Developer.

Technical Skills

- **Programming Languages:** Java, SQL, C
- **Frontend Technologies:** HTML, CSS, JavaScript,, JSP, Servlets, React
- **Backend & Frameworks:** Spring Framework, Spring Boot, Hibernate, JDBC, REST APIs, MVC Architecture
- **Database:** MySQL
- **Tools & Platforms:** Git, GitHub, IntelliJ IDEA, Eclipse, MySQL Workbench

Education

Qualification	Institution	Year	Result
B. Tech (CSE)	R.I.T. Islampur	2021 - 2025	CGPA: 7.58
HSC	Dahiwadi College, Dahiwadi	2020 - 2021	70 %
SSC	T.K.V. Malawadi	2018 - 2019	80.20 %

Work Experience

Java Full Stack Developer Intern – Cravita Technologies *(Jun 2025 – Dec 2025)*

- Built and enhanced web applications using Java, Spring Boot, JSP, SQL, and REST APIs.
- Participated in Agile activities including sprint planning, testing, and deployment.
- Wrote optimized SQL queries and procedures, improving data retrieval efficiency.
- Gained hands-on experience with debugging, Git version control, and CI/CD workflows.

Event Manager – Oyster Kode Club *(Mar 2023 – Jan 2025)*

- Planned and managed multiple technical coding events and hackathons, including the flagship event “Code 404”.
- Led a team of 20+ members to organize registrations, scheduling, and event logistics.
- Coordinated cross-team tasks and promotions to ensure smooth event execution and increase student participation by 30%.

Projects

CureBridge – Appointment Booking System (Full Stack Web Application

- Developed a doctor–patient portal with authentication, appointment booking, and admin dashboard.
- Implemented session-based authentication and features like appointment scheduling, status tracking, and doctor dashboard (approve/reject).
- Tech Stack**:** Java, JSP, Servlets, JDBC, MySQL, MVC Architecture, HTML, CSS, Bootstrap, JavaScript.
- Improved appointment scheduling efficiency compared to manual processes.

SmartHire Portal – Intelligent Job Recruitment Platform

- Built a full-stack recruitment platform with role-based access for job seekers and recruiters, including application tracking.
- Implemented JWT authentication with role-based access control using Spring Security.
- Developed REST APIs and integrated features like resume upload and application status tracking**.**
- Tech Stack: Tech Stack: Java, Spring Boot, Hibernate, MySQL, HTML, CSS, Bootstrap.

Student Management System (Full Stack Web Application)

- Built a student management system with user authentication and CRUD operations for efficient record handling.
- Developed features for student registration, login, and data management using a structured database approach.
- Tech Stack: Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, JavaScript, Bootstrap.
- Improved data handling and reduced manual record management through structured database operations.

Security Jammer for Confidential Meetings (Hardware + AI Project)

- Designed and built an ultrasonic signal jammer to reduce the effectiveness of unauthorized microphone recordings.
- Implemented a CNN-based activity detection module to identify unusual movements and trigger automated control actions.
- Aimed to improve privacy and confidentiality during sensitive meetings through automated threat detection and response.

Certifications

- Oracle Cloud Infrastructure Foundations 2025 Certified Associate
- Programming in Java – Infosys Springboard (2025)
- Database Management System Part - 1(2024)
- Programming in C++ – Infosys Springboard (2023)

Achievements

- Runner-up – Quantum 2K24 (Web Development Competition), RIT Islampur.
- Runner-up – Debate Competition, RIT Islampur.
- Active Member – CSE Student Association (2022 – 2025).
